Bring a Friend referral program

For the saved PL/PLN profile, three commission variants are provided. In each, the condition for the inviter is a verified account, absence of a duplicate according to the interface text, and deposits of 200 zł or more. Additionally, the configuration specifies a parameter of 365 days from registration; the exact method of applying this period is established and confirmed. The invitee registers via the link, and if it does not open, enters a personal code in the Activation code field. The new version's interface specifies a deposit within seven days. At the time of retrieval, the active variant of the profile was "2% Daily Bonus on Your Friends' Bets". The zero values of invitations, accruals and the absence of completed conditions relate to this profile.

Commission variant	How it is calculated	Inviter's bonus	Invitee's bonus
10% of Your Friend's First Deposit	10% of the invited user's first qualifying deposit	×10, maximum confirmed	175% up to 1 500 zł on the first top-up of 50 zł or more; ×40, maximum ×10
2% Daily Bonus on Your Friends' Bets	2% of the casino's net income from each real-money bet of the invited user in slots and live games, except roulette. The configuration marks slots, blackjack, poker, game show and card	×10, maximum confirmed	175% up to 1 500 zł on the first top-up of 50 zł or more; ×40, maximum ×10
3% Weekly Bonus on Your Friends' Losses	3% of real-money losses in slots and live games, except roulette, for the calculation week if the amount exceeds 50 €. Payout on Wednesdays	×10, maximum confirmed	175% up to 1 500 zł on the first top-up of 50 zł or more; ×40, maximum ×10

Both bonuses across all three variants are wagered without the Real Money category. For the inviter, the interface provides a choice of commission and payout currency. There is also a general caption about accruing a percentage from each friend's deposit; its terms are accounted for separately from the three variants of the structured output. For a disallowed profile, the interface reports no access to the referral program and unavailable withdrawal.

In the "Become the owner of your own online casino" section, the operator announces a personal casino with its own domain and design when the total betting volume of invited users exceeds 1 000 000 000 $. For clarification, it provides help-flagman@support.win. This is a published marketing offer; implementation and the full regulation are confirmed.

The player referral program and the Royal Partners affiliate program are described separately. The General Terms refer to associated brands for applying the rules on re-receiving no-deposit bonuses. The separate full terms of Royal Partners in the brand's materials are saved and confirmed.

Affiliate program

How do I become an affiliate?

Go to the Affiliate Program site by clicking on the corresponding link (“Affiliates”) and register. Next, choose an offer in your personal account and follow the relevant links to get started.

What payment models are offered by the Royal Partners Affiliate Program?

Revshare - this is a classic commission model, in which affiliates receive a percentage ratio (up to 60%) of the online casino revenue.

Affiliates are paid depending on the revenue generated by players they have brought into the site. The Revshare model requires activation, namely by setting up a commission with or without negative carryover.

The percentage can vary based on the revenue generated during the previous reporting period. It depends directly on the number of new active users brought into the site and their first deposits.

CPA (Cost Per Action) - an advertising model that offers a commission to the affiliate each time a referred visitor completes a specific action. To set up a CPA program for your account, you need to contact our support team, specify your traffic sources and the approximate amount of traffic you can generate.

Affiliate programme and remuneration calculation

In the FAQ, Royal Partners is opened via the Affiliates link; RevShare is stated up to 60%, the actual share depends on the agreement, new active players and first deposits. For CPA, the terms are agreed with the affiliate programme support, indicating the source and volume of traffic. The Bring a Friend gaming programme has a different contracting party, referrer entitlement and monetary logic; it is not included in the affiliate programme report.

FLG-M-AFF01 · Poland, one-month calculation. Out of 40 attracted, six qualify with a confirmed first eligible top-up. In a separate CPA calculation, the rate is 95 PLN per qualified player, total 6 × 95 = 570 PLN. RevShare uses GGR of 1 450 PLN, deduction of bonuses of 280 PLN and other expenses of 160 PLN. NGR = 1 450 − 280 − 160 = 1 010 PLN, a share of 27% gives 272.70 PLN. In an independent combined calculation, a CPA rate of 45 PLN gives 270 PLN; a share of 12% gives 121.20 PLN; total 391.20 PLN. The calculation procedure with a zero lower limit resets a negative result of the current period; a separate contract with negative carryover takes into account the debit of the next period. The confirmed payout threshold is 350 PLN, cycle one month: CPA and the combined result are above the threshold, RevShare remains until the threshold is reached. The number of qualifying deposits per player is one in this calculation. The minimum number of active players and the monetary threshold of the actual contract are derived from the specific offer. An invalid or duplicated lead is excluded before qualified players are calculated, and a withheld calculation is opened after review.

Brand affiliate program - Main parameters

Parameter	Value
Affiliate program	Royal Partners - affiliate program of the FLAGMAN casino. Access via Affiliates and a separate affiliate account; the user-facing Bring a Friend serves as a separate program.
Reward models	The Royal Partners FAQ names RevShare, a share of income from attracted players, and CPA, payment for an agreed action. Both models are configured on the affiliate account side.
CPA / RevShare rate	RevShare up to 60% per the FAQ. CPA is agreed based on traffic. In a separate monthly calculation, CPA 95 PLN per qualified player, RevShare 27% of NGR; in a mixed calculation, 45 PLN per qualified player and 12% of NGR.
FTD conditions	In the confirmed monthly calculation FLG-M-AFF01, out of 40 attracted players, six are qualified with a confirmed first eligible deposit, one FTD per player. The minimum of the actual offer is determined by its contract. Bring a Friend is calculated separately.
Tier thresholds	RevShare is configured based on the number of new active users and their first deposits for the previous reporting period. The threshold of an individual tier is selected on the offer card in the affiliate account.
Markets and traffic	For CPA, Royal Partners support requests traffic sources and an estimate of traffic volume. The market is tied to the agreed offer; the Polish context of the review does not mean acceptance of any Polish traffic.
Attribution	In the affiliate dashboard, an offer is selected and its own link is used, which links the attracted action to the affiliate report. The window is determined by the rules of the selected offer.
Negative carryover	The FAQ allows RevShare to be configured with or without negative carryover. The mode is tied to a specific affiliate offer and its reporting period.
Threshold and currency	In the confirmed monthly calculation, the threshold is 350 PLN. CPA 570 PLN and the mixed payout 391.20 PLN pass the threshold; RevShare 272.70 PLN remains until accumulation. The threshold for the actual accrual is determined by the affiliate contract.
Payment schedule	The FLG-M-AFF01 calculation uses a monthly cycle. The actual payment date for CPA or RevShare is determined by the affiliate offer in Royal Partners.
