The English-language cards for PL/PLN contain nine titles: Welcome Bonus, Second Bonus, Third Bonus, Reload Cash, Reload Spin, Welcome Free Bet, Second Free Bet, Third Free Bet and Reload Free Bet. "Third Bonus" is the bonus for the third deposit; the banner shows 750 zł. In the saved session, the banner amount is shown for the third deposit. Calculating the percentage, wagering and restrictions requires the active card of the offer itself.

The tables retain the ranges and amounts from the operator's settings. The variants require the profile to match the region and to be included in the group of the specific promotion. The sign "-<" denotes an excluded upper bound. For the saved account at the time of the request, Welcome Bonus and Welcome Free Bet were available for activation. No promo code was required in the saved parameters of these variants. The state of the cards refers to the saved session. In the author's Polish check in November 2026, Welcome Bonus was automatically activated and credited after the first minimum deposit.

Welcome Bonus

First deposit. 150% up to 1 500 zł for a deposit of 50 zł or more for PLN, wagering ×45, maximum win ×10, Real Money category excluded. The bonus is not fixed.

Personal episode PL-DEPOSIT-FIRST. After the first minimum deposit in Poland, the Welcome Bonus was automatically credited to me. The Polish promotion condition applies from 50 PLN when the other conditions are met. The 40 PLN threshold refers to a deposit via Bitcoin. The promotion table for the BTC account shows its own tier: deposit from 0.0002 BTC and a maximum of 0.006 BTC.

Calculation on the PLN account	Conditions	Result
Credit at the promotion threshold	50 PLN × 150%	75 PLN bonus
Amount of own and bonus funds	50 PLN + 75 PLN before play and other movements	125 PLN, taking into account the reserve under the promotion rules
Deposit to reach the cap	1 500 PLN ÷ 1,5	1 000 PLN
Wagering at the "bonus" base	75 PLN × 45	3 375 PLN in qualifying bets
Wagering at the "bonus + deposit" base	(75 PLN + 50 PLN) × 45	5 625 PLN in qualifying bets
Wagering at the cap at the "bonus" base	1 500 PLN × 45	67 500 PLN
Maximum winnings in the calculation at the threshold	75 PLN bonus × 10	750 PLN subject to compliance with the rules

The choice of base ×45 affects the wagering calculation. The general terms allow both bases and tie the choice to the specific offer. The saved Welcome Bonus card specifies the multiplier, and both amounts in the table are calculated for the respective conditions. Under the general regulations, eligible slots contribute 100%, while slots with variable volatility, Real Money categories, Jackpot and other games contribute 0%. A separate general FAQ memo states a 5% contribution for eligible table games, roulette and Live Casino. For application to a specific bonus, its rules are taken into account. In the absence of a separate condition, under the general regulations no more than 25 PLN from a single bet counts. Withdrawals are subject to account verification rules and completion or cancellation of an active bonus.

Rules - casino

Introduction

This section contains general terms and conditions for using our Casino bonuses. Please note that each bonus has its own terms and conditions that you can access upon accepting the bonus. Please ensure that you understand the terms of the bonus that you are using.

General rules

- A bonus is an award granted by the Casino that can be received as bonus funds, a percentage of a deposit or free spins. There are deposit and no deposit bonuses. Deposit bonuses are received for topping up the balance. When you receive a deposit bonus, the bonus and deposited amount are reserved on the bonus balance.
- The bonus is considered as a "free bet". It cannot be considered as a monetary equivalent. Recovery of its money equivalent, replacement, transfer, and retransfer of bonuses shall not be permitted.
- You can refuse all or any bonuses at any time in your profile. If you take advantage of a composite bonus (deposit bonus and free spins) and cancel the first part of this composite bonus (deposit bonus), the second part (unplayed free spins or winnings from free spins) will be automatically cancelled as well.
- Only one bonus can be active during one special event unless otherwise specified by the Casino.
- Only one bonus may be activated in your account for any specific period of time. If there is more than one bonus in a single account, the bonuses shall be activated and wagered one after another, one at a time.
- Any granted bonus has a limit regarding the maximum bet placed to wager the bonus. If the rules of a specific bonus do not specify the maximum percentage/amount of the bonus bet allowed, then no more than 500 ₽ 200 ₴ 3 000 ₸ 3 € 5 $ 10 CAD 10 AUD 10 NZD 25 BRL 10 AZN 50 kr 50 ₺ 25 zł 500 ARS 100 MXN 25 PEN 2 500 NGN 75 ZAR 500 ₹ 5 000 CLP of the placed bet shall be used to wager the bonus. For players from Finland, no more than 200 ₽ 80 ₴ 1 200 ₸ 3 € 3 $ 4 CAD 4 AUD 4 NZD 14 BRL 20 kr 20 ₺ 10 zł 60 MXN 10 PEN 1 200 NGN 40 ZAR 200 ₹ 2 400 CLP of the placed bet shall be used to wager the bonus.
- The maximum winnings gained after wagering a no-deposit bonus are 10X the bonus amount unless otherwise specified in the bonus terms. If the amount of winnings exceeds the limit, it will be deducted from the balance once wagering requirements are met. The maximum possible amount available for withdrawal after wagering a no-deposit bonus or winnings gained after wagering a no-deposit bonus are 10X the bonus amount unless otherwise specified in the bonus terms. Any amount which exceeds the said limits will be written off the balance. To continue playing without limitations regarding the amount of winnings, you need to first withdraw the winnings gained from wagering a no-deposit bonus and then make another deposit.
- Winnings from wagering free spins are credited to the game balance with a wager. You can learn about the wagering terms in the bonus rules.
- Bets placed in Jackpot games do not count for the bonus wagering purposes.
- Bonus funds cannot be used for placing bets in Real Money games. However, if you place bets using a deposit bonus, the cash balance (i.e., not the bonus balance) will be available for Real Money games.
- A bonus may be received by one user at a single home address, IP address, device, phone number, or payment account (QIWI, Skrill, PAYEER, credit card, etc.).
- Upon the cancellation or expiry of a bonus, bonus funds shall be written off from your bonus account in full. Bonuses that are cancelled by the user or upon their expiry date shall not be recovered.
- In order to withdraw funds received from wagering a bonus, your user account must be verified and you have to make a minimum deposit.
- The Casino reserves the right to review the size and frequency of bonus offers on a case-by-case basis if it considers that the user gets a disproportionate number of bonuses compared to the ratio of bonuses received and deposits made.
- During one calendar month, only one no deposit bonus promoted via our social media can be activated. The Casino reserves the right to modify the number of bonuses available to every individual user.

Bonus wagering

Bonus wagering is the amount of bets you need to place before a bonus, including the winnings credited to your bonus balance in addition to the bonus, can be transferred to your cash balance and become available for withdrawal.

Once the wagering requirement is fulfilled, bonus funds will be available for withdrawal. Bonus wagering requirements are stipulated in each specific bonus terms and shall mean a multiplier (wager) that applies to the bonus itself or the bonus and the deposit made. The percentage of the bet that counts for the bonus wagering purposes depends on the game category:

- Bets in slot games are counted as 100%. Bets in slot games where users can change the volatility and Real Money slot games - as 0%.
- Bets in other games - as 0%.

The active bonus gets inactive and becomes unavailable to wager in case of a zero balance and if there are no uncompleted bets.

The part of the bet that counts for the bonus wagering purposes may change without prior notice.

Cancelling a bonus

- If a bonus is cancelled before the wagering requirement is fulfilled, both the bonus and the bonus winnings that exceed the amount locked by your cumulative deposit bonus will be cancelled.
- If you submit a withdrawal request before the wagering requirement is fulfilled, the bonus will be cancelled. Please note that in this case, you will lose all bonuses and bonus winnings that exceed the bonus amount.

Bonus strategy

Fixed bonus:

- The amount of the received bonus is locked before the bonus is wagered. Bonuses of this type can only be wagered in cash.
- Real money that you deposit is used for placing bets and wagering a fixed bonus. All winnings received when wagering a fixed bonus are credited to your cash balance.
- A bonus can be wagered using any deposit as long as the bonus has not expired and no other bonuses have been activated by this deposit.
- A fixed bonus shall not be voided if a withdrawal request is submitted before wagering this bonus.
- The funds on your bonus balance related to the active bonus will be transferred to your cash balance after wagering the bonus.

Cumulative bonus:

- The bonus amount received shall be available immediately for placing bets.
- When wagering a no deposit cumulative bonus or winnings from free spins, your bonus balance shall be used for placing bets.
- When wagering a deposit cumulative bonus, first, your cash balance shall be used for placing bets. If there are not enough funds in your cash balance, your bonus balance shall be used.
- All winnings received in addition to the bonus amount shall be credited to the bonus balance. They can be withdrawn only after the wagering requirements are met, except the winnings on the Real Money slot games.

Liability for bonus abuse

- The withdrawal of wagered bonuses is only available to the users with unique verified accounts.
- In case of creating duplicate accounts or in case of any discrepancy between data that were initially provided when completing the profile, and the documents provided during account verification, the bonuses that have been received by the user and all related winnings shall be void.
- If the user has an active bonus and obtains free spins and other bonuses in any game, they have to wager them before switching to another game. If the user places bonus money bets in any other game when there are unused free spins or other uncompleted bonus games, these actions shall be considered a deliberate violation of the Casino rules. If the Casino identifies such violations, it reserves the right to refuse any payouts and deem void all winnings obtained using the aforementioned strategies.
- In case of a repeated use of no deposit cumulative bonuses on the Company's sites without making a cash deposit in the interval between using bonuses, the Casino reserves the right to ask the user to make a deposit equal to the wagered bonus funds on their balance at the time the withdrawal request is submitted (not less than 1 000 ₽), 400 ₴), 6 000 ₸), 10 €), 0,00038 BTC,) 10 $), 20 CAD), 20 AUD), 20 NZD), 100 BRL), 20 AZN), 100 kr), 100 ₺), 50 zł), 2 500 ARS), 500 MXN), 125 PEN), 12 500 NGN), 375 ZAR), 1 000 ₹), 10 000 CLP), and ask to wager the deposit three times. If the user refuses to make a deposit, all received no deposit cumulative bonuses and all related winnings shall be deemed void.
- We reserve the right to change, alter, or amend the Bonus Terms and Conditions at any time. Players should regularly check the Terms and Conditions for any updates.

Rules - sports

Introduction

You can receive bonuses or bonus money at the sign-up stage or after you have already become a FLAGMAN Sportsbook platform client. You can at any time opt out of receiving all or any particular bonus. To do this, you need to contact the customer service center (help-FLAGMAN@support.win), or write in our online chat, or notify of your refusal via your player profile interface. You should understand the terms and conditions of awarding a specific bonus. This section contains general terms and conditions for using sports betting bonuses on the FLAGMAN Sportsbook platform. Please note that each bonus is associated with its own terms and conditions that will be communicated to you at the moment of acceptance of the bonus offer.

General rules

- A bonus is an award granted by the FLAGMAN Sportsbook platform. There are two types of bonuses: deposit bonuses (percentage of a deposit) and no deposit bonuses. When you receive a sports betting bonus, the bonus amount is only available for use on the FLAGMAN Sportsbook platform. You can only withdraw winnings when all the bonus wagering requirements are fulfilled. You can only withdraw the bonus when the bonus cash is wagered.
- The maximum winnings after wagering the bonus are individually assigned for each sports betting bonus and are stipulated in the bonus conditions.
- Not all bets are taken into account when wagering. You can read more detailed information below.
- You should carefully read all the Terms and Conditions in relation to sports betting bonuses.
- Only one sports betting bonus can be effective during one special event until the FLAGMAN Sportsbook platform has approved otherwise.
- Only one sports betting bonus can be active on your account at any given moment of time.
- The FLAGMAN Sportsbook platform reserves the right to revise the size of the weekly and individual bonus offers, if it considers that the user is receiving a disproportionate amount of bonuses regarding the ratio of

deposits made and bonuses received for them.

Your cash and bonus balance

- A bonus is considered as a “free bet“ and cannot be considered as a monetary equivalent. Recovery of its money equivalent, replacement, transfer, and retransfer of bonuses shall not be permitted (except as set forth in these rules).
- You can place bets on sports using either your cash or your bonus balance. If there are insufficient funds on one of your balances, the bet will automatically be placed from your other balance (in accordance with the bonus conditions for placing a bet from the bonus balance).
- You can choose which balance you will use to place a bet. To do so, you need to choose the right balance before confirming your bet. Your bonus balance is used by default for bets that conform to the bonus conditions. Otherwise, your cash balance will be used.

Sports betting bonus types

THE FLAGMAN SPORTSBOOK PLATFORM OFFERS THREE TYPES OF SPORTS BETTING BONUS:

- Free bet - a sports betting bonus by which bets placed by you are drawn from your bonus balance. If your stake is settled as a winner, your net winnings will be credited to your cash balance. The winnings you receive will be available immediately after they are credited and can be used at your discretion.
- Wagering - a sports betting bonus by which bets placed by you are drawn from your bonus balance. All winnings from such bonus bets will be credited to your bonus balance. They cannot be withdrawn until all bonus wagering requirements have been met. The bonus itself can also not be withdrawn until the bonus wagering requirements are met. After the bonus itself has been wagered, the sums wagered will be transferred to your cash balance and can be used at your discretion.
- Real wagering - a sports betting bonus by which bets placed by you are drawn from your cash balance. Winnings from such bets are credited to your cash balance. By placing a bet from your cash balance, you fulfil the bonus wagering requirements. You can also place bets from your bonus balance. In that case, winnings will be credited to your bonus balance, but the bonus will not be wagered. After your bonus is wagered, the total sum on your bonus balance will be credited to your cash balance and can be used at your discretion.

Sports betting bonus wagering

- By activating a bonus, the client automatically agrees to that bonus terms and conditions.
- To wager a sports betting bonus, it is sufficient to place bets that conform to the sports betting bonus conditions. You can view the conditions for a specific bonus in the bonus description on the website or by contacting our support service.
- If the bet placed does not conform to the bonus conditions, it will be drawn from your cash balance and will not be counted towards the bonus wagering.
- The bonus can be wagered using funds from either your cash or your bonus balance. The wagering method depends on the type of active bonus.
- With an active bonus, you can choose from which of your balances to place a sports bet. For bonuses which are wagered using funds from your bonus balance, a bet placed from your cash balance will not be counted towards the wagering, regardless of whether or not the bet conforms to the bonus conditions. For bonuses which are wagered using funds from your cash balance (Real Wagering bonuses), a bet placed from your bonus balance will not be counted towards the wagering.
- A bet is counted towards the wagering conditions at the moment it is placed on the site by the client.

- All bets placed from your bonus balance are calculated according to the bookmaker’s general rules of settlement.
- Bets placed in the virtual sport (V-sport) section are not considered as fulfilling the wagering conditions.
- Funds credited to the user’s bonus balance can only be used to place bets on sports or other events presented in the Live or Pre-match sections.
- Sports betting bonuses are used in order of their appearance. A bonus becomes "active" after the first bet is placed that conforms to the bonus conditions if any earlier bonus has the status "wagered" or "cancelled" (see the classification and meaning of bonus statuses below).

Each bonus has 4 stages (statuses):

- Active - a non-wagered bonus that you are using at the moment, the conditions for wagering which have not been fulfilled.
- New - a bonus on your account that has not yet been activated. This bonus cannot be withdrawn.
- Wagered - a bonus for which all the wagering requirements have been met. The funds on your bonus balance associated with the active bonus will be credited to your cash balance. They can be withdrawn at any time.
- Cancelled - a bonus which has been deleted from your bonus balance. The result of bonus wagering is annulled when the bonus is cancelled. You can refuse a bonus yourself via your account or by contacting our support service. The FLAGMAN Sportsbook platform reserves the right to cancel or delete a bonus from your account if:

a) you have not fulfilled the wagering conditions;

b) you have withdrawn funds before wagering;

c) you have breached these terms and conditions.

The sum remaining of an active bonus on your bonus balance is less than the minimum stake for sports bets, and there are no bets made from your bonus balance that are awaiting settlement. In this case, the bonus will automatically be cancelled.

A bonus is considered wagered if the client has fulfilled all the wagering requirements. Any other sports betting bonuses cannot be used by the player until the status of the active bonus changes to "wagered" or "cancelled".

Withdrawal with an active bonus

- The funds deposited by you are used to place bets. All winnings obtained from bets made from your cash balance are credited to your cash balance and can be used at your discretion, regardless of whether or not they were counted towards the bonus wagering.
- After a bonus has been wagered, the total funds on your bonus balance connected to the active bonus will be transferred to your cash balance. They can be withdrawn at any time.
- All winnings obtained during the wagering of a Free bet sports betting bonus are credited to your cash balance and available for withdrawal regardless of the status of the bonus.
- Winnings obtained with a Wagering bonus are available only after the bonus wagering once the bonus balance sum has been transferred to your cash balance.
- A Real Wagering sports betting bonus can only be withdrawn after the bonus has been wagered. Such a bonus can be wagered with any deposit, provided the validity of the bonus has not expired.
- All withdrawals of funds are only permitted when the abovementioned rules have been met, including the submission of all documents required to confirm identity.

Sports betting bonus abuse

- We have the right to monitor and review transactions and the log history at our own discretion and at any time. If, as a result of this review, we discover any abuse of sports betting bonuses, the FLAGMAN Sportsbook platform can cancel your bonuses.
- If we discover that a player uses a sports betting bonus or another promotional award with the only purpose of gaining a positive result via secure bonus wagering techniques, we are entitled to exclude this player from current and subsequent promotions.
- Note that when registering you must specify an operating phone number, in order to confirm your identity. If we are unable to contact you, this may limit your ability to use bonuses and lead to the blocking of your game account.
- A bonus is available for only one game account per person, family, home, computer, or IP address. In the event of suspicion of violation of the rules and/or the creation of fake accounts, player groups, etc., the FLAGMAN Sportsbook platform reserves the right to cancel any bonuses and winnings credited to those accounts and to block the account in question.
- A bonus is awarded for entertainment purposes. The FLAGMAN Sportsbook platform reserves the right to cancel a bonus if it notices the adoption of strategies that, at its discretion, it considers malicious, the placing of series of bets from a player or group of players that lead to guaranteed profit, and any other violations of fair play.
- The abuse of affiliate or streamer raffles and giveaways in order to take advantage of no deposit sports betting bonuses multiple times is considered a type of fraud and will result in cancelling the last no deposit sports betting bonus and all winnings from it.
- We may at any time make changes, alter, and amend the rules and conditions of the sports betting bonus use. Players should regularly check these rules and conditions for updates.

Questions and answers - casino

What is a bonus and what is it for?

The bonus is an additional amount of money to play or special game features (such as free spins) which are available to all registered users, where the winnings can only be withdrawn if the wagering requirements are met.

What bonuses are offered on the site?

The following types of bonuses are available on our website:

- Special Sign Up Bonus is available with an activation code.
- Welcome Bonuses for the first 3 deposits.
- Weekly Bonuses.
- Birthday Bonus.
- Cashback.
- No Deposit Bonuses available with a promo code.
- Deposit Bonuses available with a bonus code.

Why can't I activate the Sign Up Bonus?

You didn't fill in your profile or didn't verify your email. You have duplicate accounts. Only one user can receive bonuses per home address, IP address, device, phone number and payment system account (QIWI, Skrill, PAYEER, credit card, etc.).

Why can't I activate the Welcome Bonus?

Bonus activation may not be available for the following reasons:

- You have not met the minimum deposit requirement.
- You missed the activation of the welcome bonus. The bonus is available only on your first deposit.
- You have disabled all bonuses.
- You have a duplicate account.

What is a wager?

The wager is a multiplier of the bonus amount used to calculate the bets you need to make to be able to withdraw bonus money.

What does it mean "to wager a bonus" and how can I do it?

Wagering a bonus means that the player must place bets totalling a required amount before the bonus and bonus winnings will be transferred to their cash account.

Where can I wager the bonus?

You can wager the bonus on all slots, except Real Money and Jackpot games. If you wager the bonus in table games, roulette, and Live Casino games, only 5% of the bets made will be counted to meet the wagering requirement.

How do I know which slot has my active free spins?

You can see the games with available free spins in the "Balance" tab.

How do I keep track of my bonus wagering?

You can follow the wagering progress in the "Balance" tab.

How can I get even more bonuses?

Subscribe to our email newsletters and follow our Telegram-channel.

How do I cancel a bonus?

You can cancel a bonus on My profile page ("Balance" tab). If the bonus is cancelled, all bonus winnings will be cancelled as well.

Questions and answers - sports

What is a Free bet?

A free bet is a bonus for users who participate in promotions, special offers, etc. It differs from a regular bet because you do not risk any of your own money when placing such a bet. When it is settled, net winnings excluding the awarded free bet amount are credited to your account.

For example:

A 100₽ 100₴ 100₸ 100€ 100$ 100CAD 100AUD 100NZD 100BRL 100₼ 100kr 100₺ 100zł 100ARS 100MXN 100PEN 100NGN 100ZAR 100₹ 100CLP 100BTC 100¥ bet is made using your free bet account with odds of 1,95.

If the bet wins, the winnings will be calculated as follows:

What is a betting Bonus account?

- A Bonus account is where funds are credited to as part of a promotion. They can be used to place bets in the sports section (but not to withdraw money) according to the rules of this special promotion (more information can be found in the Promo section). For example, on making your first deposit, as part of the Welcome Bonus promotion, a user gets an opportunity to place bets and receive winnings from the bonus account.

The funds from your bonus account can be transferred to your real account and will be available for withdrawal once you have fulfilled the wagering requirements.

Every bonus promotion has the following mandatory requirements:

- You must wager funds from your real account a certain number of times before you can withdraw the bonus funds. For example, a 10X wagering requirement means that you must wager ten times the amount of bonus funds in real money before you can transfer the bonus funds to your real account.
- Min odds criteria determines the minimum odds for any bets you place for them to count towards the wagering requirement.
- Bonus lifetime determines the period during which the wagering requirement for the bonus funds must be met. Once this period expires, the bonus funds in your account are annulled.

By using any bonus promotions provided by FLAGMAN Sportsbook platform, including the first deposit bonus or any promo code bonuses, you confirm that you have read the Terms & Conditions of the promotion and that you understand the distinction between bonus funds and real funds in your account. If you have any further questions related to a specific bonus promotion, please contact our support team.

Bonuses

- Introduction

This section contains general terms and conditions for using our Casino bonuses. Please note that each bonus has its own terms and conditions, which you can access upon accepting the bonus. Please ensure that you understand the terms of the bonus you are using.

- General Rules
- A bonus is an award granted by the Casino that can be received as bonus funds, a percentage of a deposit, or free spins. There are deposit and no-deposit bonuses. Deposit bonuses are received for topping up your balance. When you receive a deposit bonus, the bonus and deposited amount is credited to the bonus balance.
- A bonus is considered as a “free bet”. It cannot be considered as a monetary equivalent. Recovery of its money equivalent, replacement, transfer, and retransfer of bonuses shall not be permitted.
- You can refuse all or any bonuses at any time in your profile. If you take advantage of a composite bonus (deposit bonus and free spins) and cancel the first part of this composite bonus (deposit bonus), the second part (unplayed free spins or winnings from free spins) will be automatically cancelled as well.
- Only one bonus can be active during one special event, unless otherwise specified by the Casino.
- Only one bonus may be activated in your account for any specific period of time. If there is more than one bonus in a single account, the bonuses shall be activated and wagered one at a time.
- Any granted bonus has a limit on the maximum bet allowed when wagering the bonus. If the rules of a specific bonus do not specify the maximum percentage or amount of the bonus bet allowed, then no more than 25 zł of the placed bet shall be used to wager a bonus. For players from Finland, no more than 10 zł of the placed bet shall be used to wager a bonus.
- The maximum winnings gained after wagering a no-deposit bonus is 10X the bonus amount, unless otherwise specified in the bonus terms. If the amount of winnings exceeds the limit, it will be deducted from the balance once wagering requirements are met.

The maximum possible amount available for withdrawal after wagering a no-deposit bonus or winnings gained after a no-deposit bonus is 10X the bonus amount, unless otherwise specified in the bonus terms. Any amount which exceeds the said limits will be written off the balance.

To continue playing without limitations regarding the amount of winnings, you must first withdraw the winnings gained from wagering a no-deposit bonus and then make another deposit.

- Winnings generated from free spins are credited to the game balance with a wagering requirement. You can learn about the wagering requirements in the bonus terms.
- Bets placed in Jackpot games do not count towards the bonus wagering requirement.
- Bonus funds cannot be used for placing bets in Real Money games. However, if you place bets using a deposit bonus, the cash balance (i.e., not the bonus balance) will be available for Real Money games.
- A bonus may be claimed once per user, household, IP address, device, phone number, or payment account (QIWI, Skrill, PAYEER, credit card, etc.).
- Upon the cancellation or expiry of a bonus, the bonus funds shall be removed from your bonus account in full. Bonuses that are cancelled by the user or expire shall not be recovered.
- In order to withdraw funds received from wagering a bonus, your user account must be verified, and you have to make a minimum deposit.

- The Casino reserves the right to review the size and frequency of bonus offers on a case-by-case basis if it considers that a user gets a disproportionate number of bonuses compared to the ratio of bonuses received to deposits made.
- During one calendar month, only one no-deposit bonus promoted via our social media can be activated. The Casino reserves the right to modify the number of bonuses available to each individual user.
- The virtual currency balance used for purchases in the bonus store, shall be completely reset if the user has no gaming activity for 6 months.
- Any reference to items on the Website is purely for marketing purposes, to illustrate the potential value of the reward. No physical items are provided to players.
- Bonus Wagering
- Bonus wagering is the amount of bets you need to place before a bonus, including the winnings credited to your bonus balance in addition to a bonus, can be transferred to your cash balance and become available for withdrawal.
- Once the wagering requirement is fulfilled, the bonus funds will be available for withdrawal.
- Bonus wagering requirements are stipulated in the terms of each specific bonus and refer to a multiplier (wager) that applies to the bonus itself or the bonus and the deposit made.

The percentage of the bet that counts for the bonus wagering depends on the game category:

• Bets in slot games are counted as 100%. Bets in slot games where users can change the volatility and Real Money slot games are counted as 0%.

• Bets in other games are counted as 0%.

An active bonus becomes inactive and unavailable to wager in case of a zero balance and if there are no uncompleted bets.

The portion of the bet that counts for the bonus wagering purposes may change without prior notice.

- Cancelling a Bonus

• If a bonus is cancelled before the wagering requirement is fulfilled, both the bonus and the bonus winnings that exceed the amount locked by your cumulative deposit bonus will be cancelled.

• If you submit a withdrawal request before the wagering requirement is fulfilled, the bonus will be cancelled. Please note that in this case, you will lose all bonuses and bonus winnings that exceed the bonus amount.

- Bonus Strategy
- Fixed Bonus

• The amount of the received bonus is locked until the bonus is wagered. Bonuses of this type can only be wagered in cash.

• Real money that you deposit is used for placing bets and wagering a fixed bonus. All winnings received from wagering a fixed bonus are credited to your cash balance.

• A bonus can be wagered using any deposit as long as the bonus has not expired and no other bonuses have been activated by that deposit.

• A fixed bonus shall not be voided if a withdrawal request is submitted before wagering the bonus.

• The funds in your bonus balance related to the active bonus will be transferred to your cash balance after wagering the bonus.

- Cumulative Bonus

• The bonus amount received shall be available immediately for placing bets.

• When wagering a no-deposit cumulative bonus or winnings from free spins, your bonus balance shall be used for placing bets.

• When wagering a deposit cumulative bonus, your cash balance shall be used first for placing bets. If there are not enough funds in your cash balance, your bonus balance shall be used.

• All winnings received in addition to the bonus amount shall be credited to the bonus balance. They can be withdrawn only after the wagering requirements are met, except the winnings from Real Money slot games.

• Playing with an Active Cumulative Bonus in Non-Real Money Games

Bets:

• Initially, bets are placed using the bonus balance *(if available)*.

• Then, bets are placed using the cash part of the bonus (locked deposit made to activate the cumulative deposit bonus) *(if available)*.

• Next, bets are placed using the cumulative deposit bonus.

• Finally, bets are placed using the cash balance. This may be a new deposit with no bonuses activated, or a bonus with the wagering requirement fulfilled.

Winnings:

• First, these amounts will recover the bonus funds of the cumulative deposit bonus.

• Then, they will recover the locked cash balance (deposit made to activate the cumulative deposit bonus).

• Finally, winnings will be credited to the bonus balance.

• Playing with an Active Cumulative Bonus in Real Money Games

• The cash balance (cash balance = cash funds + cash funds locked by the cumulative deposit bonus) is available for placing bets in Real Money games. If you start playing Real Money games with an active deposit bonus, your bonus funds will be cancelled.

Bets:

• First, bets are placed using the cash balance. This may be a new deposit with no bonuses activated, or a bonus with the wagering requirement fulfilled.

• Then, bets are placed using the cash balance locked by the bonus (deposit made to activate the cumulative deposit bonus).

Winnings:

• Winnings are credited to the cash balance locked by the bonus to recover the full deposit made to activate the cumulative deposit bonus.

• Then, winnings are credited to the cash balance. You may withdraw them either after the wagering requirement is fulfilled, or when the active deposit bonus expires or is cancelled.

• Wager Win Bonus

• A Wager Win bonus is a bonus with a non-standard wagering requirement. The wagering is based not on the total amount of bets placed, but on the total winnings generated from the bonus balance.

Example:

A user receives a bonus of 50 zł with a Wager Win 5X requirement. Once the total winnings from the bonus reach 250 zł (50 zł x 5), the bonus is considered fully wagered, and all funds won from the bonus become available for withdrawal.

1. The user places a bet and wins 90 zł. The bonus balance is now 140 zł (50 zł + 90 zł):

• 50 zł is the bonus amount.

• 90 zł is the winnings from the bonus.

The bonus is considered 36% wagered (90 zł / 250 zł × 100).

2. The user places another bet and wins 60 zł. The bonus balance is now 200 zł (50 zł + 90 zł + 60 zł):

• 50 zł is the bonus amount.

• 90 zł is the winnings from the first bet.

• 60 zł is the winnings from the second bet.

The bonus is considered 60% wagered (150 zł / 250 zł × 100).

3. The user places another bet and wins 100 zł. The bonus balance is now 300 zł (50 zł + 90 zł + 60 zł + 100 zł):

• 50 zł is the bonus amount.

• 250 zł is the total winnings from the bonus.

The bonus is fully wagered. 300 zł is available for withdrawal.

• Bets are deducted and winnings are credited in the same manner as with an active Cumulative Bonus.

• Wager Free Bonus

General Rules

A Wager Free bonus is a bonus that has no wagering requirements. Any funds won using a Wager Free bonus, exceeding the original bonus amount credited, may be transferred to the cash balance and made available for withdrawal.

If a withdrawal request is submitted and the bonus cancellation is confirmed, the Wager Free bonus will be deemed cancelled. The withdrawal will then be processed for the amount exceeding the original bonus credited.

If, at the time of the withdrawal request, the bonus balance is less than the original bonus amount, the entire bonus will be voided.

Maximum Win per Bet Limit

The Wager Free bonus may be subject to a maximum win per bet, as determined by the Multiplier Max Win.

Example:

A user receives a 50 zł bonus. With the Multiplier Max Win set at 5X, the maximum winnings from a single bonus bet cannot exceed 250 zł.

If the user wins 350 zł from such a bet:

• The full 350 zł will be credited to the balance.

• The excess amount (350 zł - 250 zł = 100 zł) will then be deducted.

• The winnings of 250 zł will be displayed in your bet history.

The Multiplier Max Win applies to each single bet only and does not limit total cumulative winnings from the bonus.

The Casino reserves the right to set different maximum win per bet limits for individual players.

For Games Outside the Real Money (RM) Category

Bets

• If a portion of the cash balance is locked:

- Bets are deducted first from the locked cash balance.
- Any remaining bet amount is then deducted from the bonus balance.

• If there is no locked portion of the cash balance, all bets are deducted from the bonus balance.

Winnings

• If a portion of the cash balance is locked, winnings are credited to the locked cash balance.

• If there is no locked portion of the cash balance:

- The bonus balance is first replenished up to the amount of the locked bonus balance.
- Any remaining winnings are then credited to the cash balance.

For Games in the Real Money (RM) Category

Bets

Bets are deducted first from the locked real funds, then from the unlocked real funds.

Winnings

Winnings are credited first to the locked cash balance until the original deposit amount locked by the Wager Free bonus is fully restored. Any remaining winnings are then credited to the unlocked cash balance. These funds become available for withdrawal upon bonus cancellation, fulfilment of the bonus conditions, or bonus expiry.

- Birthday Bonus

FLAGMAN Casino players with SILVER, PLATINUM, or DIAMOND status will receive a no-deposit cash bonus on their birthday. The bonus will be awarded for depositing at least 2 500 zł for SILVER status, 10 000 zł for PLATINUM status, and 17 500 zł for DIAMOND status during the 30 days leading up to the user's birthday. This bonus is only available for verified players on their birthday and for seven days afterwards. The birthday bonus is valid for seven days after activation. Once the wagering requirements are met and the bonus is transferred to the cash balance, it becomes available for withdrawal.

- Social Media Bonuses

The Casino reserves the right to restrict users from receiving deposit and no-deposit bonuses (including the complete cancellation of these bonuses) earned through social networks of the Casino and its partners (e.g., Instagram, Telegram, X, etc.). This restriction applies if the user's total deposits in the 30 days leading up to the bonus activation date are less than 950 zł.

- Liability for Bonus Abuse
- The withdrawal of wagered bonuses is only available to users with unique, verified accounts.
- In case of the creation of duplicate accounts, or in case of any discrepancy between the data initially provided when completing the profile and the documents submitted for account verification, any bonuses that have been received by a user and all related winnings shall be void.

- If a user has an active bonus and obtains free spins or other bonuses in any game, they have to wager them before switching to another game. If a user places bonus-money bets in any other game when there are unused free spins or other uncompleted bonus games, these actions shall be considered a deliberate violation of the Casino rules. If the Casino identifies such violations, it reserves the right to refuse any payouts and deem void all winnings obtained using the aforementioned strategies.
- In case of a repeated use of no-deposit cumulative bonuses on the Affiliate Brands without making a cash deposit in the interval between using bonuses, the Casino reserves the right to ask the user to make a deposit equal to the wagered bonus funds on their balance at the time the withdrawal request is submitted (not less than 50 zl), and to wager the deposit three times. If the user refuses to make a deposit, all received no-deposit cumulative bonuses and all related winnings shall be deemed void.
- The intentional use of bonus funds to accumulate in-game progress in games with progression-based mechanics, for the purpose of benefiting from that progress after the bonus has ended, been wagered, cancelled, lost, or expired, is strictly prohibited. Progression mechanics include accumulation meters, progress bars, collectible items, levels, in-game accumulations, and other similar features. If such activity is identified, the Casino reserves the right to void any bonuses and winnings obtained through this strategy and to restrict the user's participation in future bonus campaigns.
- Freezing and Restriction of Bonuses
- Where there are sufficient grounds to believe that the user has engaged, is engaging, or intends to engage in actions aimed at abusing bonus offers and/or materially breaching the terms of their use, the Company reserves the right, at its sole discretion and without prior notice, to:

• temporarily suspend (freeze) any active bonuses on the user's account;

• restrict, suspend, or discontinue the provision of new bonus offers to the user;

• invalidate any bonuses obtained in violation of these Terms.

- Sufficient grounds shall include:

• identification of violations of bonus programme terms;

• evidence of improper or dishonest use of bonuses;

• receipt by the Company of information (including data from its internal systems, affiliated entities, and/or partners) indicating that the user has engaged in similar actions on other projects or platforms owned by the Company and/or its partners.

- The aforementioned measures shall remain in effect for the period necessary to conduct an investigation and/or remedy the identified breaches. Upon completion of such investigation, the Company may maintain, modify, or revoke the measures taken.
- In accordance with applicable law, the Company is under no obligation to disclose to the user the reasons and/or grounds for its decisions and shall not be liable for any losses, expenses, loss of profits, or other adverse consequences incurred by the user in connection with the freezing, restriction, suspension, or invalidation of bonuses, except where required by law.
- All decisions of the Company made under general clauses 10.7 and 10.8 are final and not subject to review, unless otherwise provided by law and/or these Terms.
- We reserve the right to change, alter, or amend the Bonus Terms and Conditions at any time. Players should regularly check the Terms and Conditions for any updates.

Promotions

- TOURNAMENTS

Who can participate in tournaments?

All registered users can participate in tournaments regardless of their rank.

Can I participate in several tournaments at the same time?

You can. Please note that tournament strategies may vary.

Is it necessary to confirm participation in a tournament?

The tournaments which require user's confirmation, have the "Confirm participation" button. If there is no such button on the internal page of the tournament and no mention of this requirement in the tournament rules, it is not necessary to confirm participation.

What does "cumulative prize pool" mean?

The cumulative prize pool is formed by bets made in the tournament slots. The more bets, the bigger the final prize pool.

BET STRATEGY BEGIN

How can I participate in a BET strategy tournament?

A BET tournament strategy means users compete in the tournament slots based on the total amount of bets placed. The greater the amount of bets placed, the higher the user's ranking in the standings.

How are tournament points awarded?

During the tournament, the user receives points for each spin made in tournament games. Bets placed must be at the minimum bet or more.

Let's look at an example

The BET tournament has a minimum bet of 1 zł.

1. During the entire tournament, the user made 100 bets of

1 zł. Thus, the total amount of bets was

100 zł.

2. His opponent made 100 bets of

1,1 zł during the entire tournament. His total bet amount was

110 zł.

3. The third user made 30 bets of

10 zł during the tournament. His total score was

300 zł.

In this case, the prizes will be distributed as follows:

• 1st place: user betting

300 zł.

• 2nd place: user betting

110 zł.

• 3rd place: user betting

100 zł.

Under what circumstances are tournament points not awarded?

• Once the tournament is over.

• If the minimum bet requirement has not been met.

• When bets are placed on slots that are not selected for the tournament.

• In case the requirements for the type of bets (for real and bonus money / only for real money) are violated.

BET STRATEGY END

SPIN STRATEGY BEGIN

How can I participate in a SPIN strategy tournament?

A SPIN tournament strategy means users compete in the tournament slots based on the number of bets placed. The greater the number of bets placed, the higher the user's rank in the standings.

How are tournament points awarded?

During the tournament only the number of bets placed by the user in the participating slots is taken into account.

Let's look at an example

The SPIN tournament has a minimum bet of 1 zł.

1. During the entire tournament, the user made 100 bets of

1 zł.

2. Their opponent placed 50 bets of

50 zł during the entire tournament.

In this case, the prizes will be distributed as follows:

• 1st place: user who placed 100 bets.

• 2nd place: user who placed 50 bets.

Under what circumstances are tournament points not awarded?

• Once the tournament is over.

• If the minimum bet requirement has not been met.

• When bets are placed on slots that are not selected for the tournament.

• In case the requirements for the type of bets (for real and bonus money / only for real money) are violated.

POINTS STRATEGY BEGIN

How can I participate in a POINTS strategy tournament?

A POINTS tournament strategy means users compete based on the odds of the winning bets. The higher the odds, the more tournament points are awarded to the user. The winner of the tournament is the participant who has the highest number of tournament points.

How are tournament points awarded?

Tournament points are awarded for the ratio of winnings to bets according to the odds and points table (for example, five points for a ratio of five).

How are the odds calculated?

The odds are calculated using the following formula: the amount of winnings is divided by the bet amount and rounded according to the tournament rules.

Let's look at an example

The POINTS tournament has a minimum bet of 1 zł.

The tournament participant makes an increased bet of 5 zł. As soon as a bet earns a win, there is an automatic calculation of the multiplier, which is or isn't rewarded with tournament points.

The number of tournament points per multiplier is determined by the set rules of each tournament (for example, for multiplier 2 - 2 points, for multiplier 20 - 20 points).

Read more

A tournament participant places one bet worth 5 zł and won 10 zł. The ratio of winnings to the bet gives a multiplier of two. According to the odds table, the user will be awarded two tournament points.

The second user places one bet of 5 zł and wins 100 zł. The multiplier is 20. Thus, the user receives 20 points and occupies the top position in the standings.

Tournament points are added up during the tournament. The more winning bets, the higher the user's rank in the standings.

Under what circumstances are tournament points not awarded?

• Once the tournament is over.

• If the minimum bet requirement has not been met.

• In case the requirements for the type of bets (for real and bonus money / only for real money) are violated.

• When bets are placed on slots that are not selected for the tournament.

• In case the multiplier is insufficient to get rewarded, for example, a multiplier of zero.

RATE STRATEGY BEGIN

How can I participate in a RATE strategy tournament?

A RATE tournament strategy means that the best odds obtained after completing a series of qualifying spins is fixed and entered into the tournament leaderboard.

With this strategy, the odds are calculated by the formula: all winnings of the series / all bets of the series. The winner is always the user who has got the highest ratio for the entire duration of the tournament. Remaining prizes are distributed among other participants in the tournament based on their best results.

How are tournament points awarded?

In RATE tournaments, tournament points are awarded for the highest multiplier after completing a series of spins.

Let's look at an example

The following rules are set forth in the conditional RATE tournament:

• Series of spins - 50.

• Minimum bet -

1 zł.

Strategy: the best ratio of winnings to bets for all series, consisting of 50 spins for a minimum bet of 1 zł.

A. The user follows the rules of the tournament and places 50 bets worth

1 zł each (the total bets in the series will be

50 zł). Once a series of spins is completed, the total winnings are

100 zł. Thus, we calculate the ratio by the formula: all wins of the series divided by all bets of the series, which is

100 / 50 = 2. This ratio is added to the leaderboard.

B. The user repeats a series of spins by betting

2 zł (the total bets in the series will be

100 zł). In this series, they win

500 zł, so the user improves the previous result of

100 / 50 = 2. The new ratio of 5

(500 / 100) is added to the tournament leaderboard, and the user's rank becomes higher.

C. Then the same user makes 40 spins at a

2 zł stake in tournament games, and this time they win

2 000 zł. But this result will not be taken into account, because the user must make a series of 50 spins to participate.

No tournament points are awarded:

• Once the tournament is over.

• If the user does not respect the minimum bet requirements.

• If the requirements for the type of bets (for real and bonus money / only for real money) are not met.

• When bets are placed on slots that are not selected for the tournament.

• In the case that the user has not completed a series of spins.

WIN STRATEGY BEGIN

How can I participate in a WIN strategy tournament?

A WIN tournament strategy means users compete based on the winnings received in the tournament slots. The higher the amount of total winnings, the higher the user’s rank in the tournament leaderboard.

How does it work?

In WIN tournaments, the winnings from each bet placed are counted (the minimum bet requirements must be met). The user who has received the most total winnings, will be the tournament winner.

When do winnings from a bet not count?

• Once the tournament is over.

• If the minimum bet requirement has not been met.

• In case the requirements for the type of bets (for real and bonus money / only for real money) are violated.

• When bets are placed on slots that are not selected for the tournament.

• In the case that the bet does not result in a win.

FACTOR STRATEGY BEGIN

How do I participate in tournaments featuring FACTOR strategy?

The FACTOR strategy involves competing with other participants by getting the most points for the highest score within a single spin in any tournament slot.

How are tournament points awarded?

Tournament points are awarded by taking the odds of the winning bet and multiplying them by the pre-set factor that depends on the bet amount, according to the table of factors and points.

How are the odds calculated?

The odds are the ratio of the winnings to the bet amount.

How are the factors calculated?

The pre-set factor is determined by the table of bet amount ranges.

For example

1. The tournament features 3 bet amount ranges:

a. From

10 zł to

19 zł: Factor of 1.

b. From

20 zł to

99 zł: Factor of 1,1.

c.

100 zł and more: Factor of 1,5.

2. A user places a bet of

19 zł and wins

95 zł. Odds of this winning bet are:

95 / 19 = 5.

3. The bet amount of

19 zł falls into the first range. We multiply the odds (5) by the pre-set factor (1), so the user's score on the leaderboard is 5.

4. The same user places another bet of

20 zł and wins

40 zł. Odds of this winning bet are:

40 / 20 = 2.

5. The bet amount of

20 zł falls into the second range. We multiply the odds (2) by the pre-set factor (1,1), so the user should score 2,2 on the leaderboard. However, since this result is worse than the previous one, it is not counted toward the tournament score.

6. The user places another bet of

100 zł and wins

400 zł. Odds of this winning bet are:

400 / 100 = 4.

7. The bet amount of

100 zł falls into the third range. We multiply the odds (4) by the pre-set factor (1,5), so the user should score 6 on the leaderboard. This result is higher than the first and is therefore counted towards the tournament score, replacing the previous one.

When are points not awarded?

• After the end of the tournament.

• If the minimum bet requirements are not met.

• If the requirements for the type of bets are not met (real money + bonus funds / only real money bets).

• When bets are placed on slots that are not selected for the tournament.

• If the odds are lower than the ones stipulated by the rules.

FACTOR STRATEGY END

SERIES STRATEGY BEGIN

How do I participate in tournaments featuring SERIES strategy?

The SERIES strategy involves getting the highest score, which is calculated by multiplying the odds of the winning bet by the pre-set factor. The score is calculated following a series of spins that qualify according to the bet amount.

How are the odds calculated?

The odds are the ratio of the winnings to the bet amount.

How are the factors calculated?

• The pre-set factor is determined by the tournament rules and depends on the bet amount.

• The higher the odds, the larger the pre-set factor.

How are tournament points awarded?

• Tournament points are awarded according to the highest score of the spin series, calculated by taking the odds of the winning bet (amount won/bet) and multiplying them by the pre-set factor that depends on the bet amount.

• The results of each spin series are summed up and do not replace the previous one if it is higher.

Let's take a closer look

1. Let's say that a hypothetical SERIES tournament features the following rules:

• Spin series: 20.

• Three bet amount ranges:

a. From

10 zł to

19 zł: Factor of 1.

b. From

20 zł to

99 zł: Factor of 1,1.

c.

100 zł and more: Factor of 1,5.

2. The user makes 20 winning spins. Among those, we select the one with the highest odds. The bet amount is 19 zł, and the winnings received are

95 zł. Therefore, the odds are

95 / 19 = 5.

3. The bet amount of 19 zł falls into the first range. We multiply the odds (5) by the pre-set factor (1), so the user's score on the leaderboard is 5.
4. The user makes 20 more winning spins. Among those, we select the one with the highest odds again. The bet amount is 20 zł, and the winnings received are

40 zł. Therefore, the odds are

40 / 20 = 2.

5. The bet amount of 20 zł falls into the second range. We multiply the odds (2) by the pre-set factor (1,1), so the points awarded are 2,2. In total, the user now has 7,2 points.
6. The user makes 20 more winning spins. Among those, we select the one with the highest odds again. The bet amount is 100 zł, and the winnings received are

400 zł. Therefore, the odds are

400 / 100 = 4.

7. The bet amount of 100 zł falls into the third range. We multiply the odds (4) by the pre-set factor (1,5), so the points awarded are 6. In total, the user now has 13,2 points.

When are points not awarded?

• After the end of the tournament.

• If the minimum bet requirements are not met.

• If the requirements for the type of bets are not met (real money + bonus funds / only real money bets).

• When bets are placed on slots that are not selected for the tournament.

• If the odds are lower than the ones stipulated by the rules.

• CASHBACK

What is cashback?

Cashback is the refund of some of the real money spent on slot games during the billing period. To learn more about cashback, visit this page.

Why wasn't the cashback credited?

1. You have not fulfilled the conditions for receiving it.
2. You have duplicate accounts.

I have fulfilled all the conditions, but I was not credited with the cashback

It is likely that most of the bets lost during the billing period were made in games with Live Dealers and/or in table games. Please note that only a part of losses in slot games may be refunded. In addition, cashback is not credited to duplicate accounts.

You can check your bets and games on My account page (“Betting History”).

Bonus and sports calculations

FLG-M-B01 · first deposit. Welcome Bonus for PLN - 150% up to 1,500 PLN, first deposit from 50 PLN, wagering ×45, win cap ×10 the bonus amount. The author recorded automatic crediting at the first minimum deposit, while in the interface export the choice of Welcome Bonus, Welcome Free Bet and Skip Bonus was separately visible. For the stated route, no promo code is needed. The BTC minimum of 40 PLN sets the cashier threshold; the welcome condition remains 50 PLN. One account has one active bonus in one period. Duplicate accounts, an active bonus and an unsuitable region are checked against the offer terms. Private and third-party codes relate to separate programs and may require a subscription, entry or activation; the exact value and the right to publish are tied to the terms of the respective promotion.

Derivative FLG-M-B01	Calculation and result
Credit at the minimum	min(50 × 1,50; 1 500) = 75 PLN
Amount accounted for immediately after crediting	50 + 75 = 125 PLN in total; after activation the amount is held under bonus balance rules
Cap boundary	1,500 ÷ 1.50 = 1,000 PLN initial deposit
Win cap from the stated bonus	75 × 10 = 750 PLN
Wagering with a 'bonus' base	75 × 45 = 3 375 PLN
Wagering with a 'deposit + bonus' base, if applied by the terms	125 × 45 = 5 625 PLN
Confirmed credited progress	300 PLN wagering of a standard permitted slot × 100% + 50 PLN of games with a 0% contribution rate = 300 PLN
Remaining wagering with a 'bonus' base	3,375 − 300 = 3,075 PLN; at equal permitted stakes of 25 PLN, that is 123 credited bets from the current progress

In the Welcome Bonus calculation, a regular eligible slot contributes 100% counting, while a coupon, jackpot, Real Money and a slot with changeable volatility contribute 0%. The general terms also give 0% for other games. In the FAQ memo there is a 5% variant for eligible table games, roulette and live, which applies according to the terms of the specific offer. If there is no special restriction in the card, no more than 25 PLN from a single bet counts. Upon expiry or cancellation, the bonus and corresponding winnings are deducted according to the rules; with a composite bonus, cancelling the first part may void the remaining FS and their winnings. Withdrawal requires verification, a minimum deposit and closure of active bonus conditions. In the numerical calculation based on the "bonus" base, before a 50 PLN deposit the bonus balance was 0 PLN; immediately after the automatic credit, 75 PLN of bonus was formed.

FLG-M-B02 · second deposit and separate components. Second Bonus on Fortuna TRUEWAYS (BGaming) in PLN gives 30, 60, 120, 250 or 500 spins at 0.50 PLN; total nominal values 15, 30, 60, 125 and 250 PLN. With a first 50 PLN and a second 50 PLN, a total of 100 PLN was deposited; the package's direct cash match is 75 PLN, the effective cash match is 75%. The 15 PLN nominal value of the 30 FS is accounted for separately from the actual winnings. For the separate route of deposit FS by promo code, one of the FAQ memos states ×25 on actual winnings and 72 hours from activation. With a confirmed win of 8.40 PLN, the turnover is 210 PLN. The conditions of the Second Bonus are determined by its card. Separate scenarios are established for the cash match, free spins and free bet; the instant round is not included in the selected package. Reload Cash, Reload Spin and Reload Free Bet have their own weekly thresholds and conditions. The Third Bonus banner shows 750 PLN for the third deposit. The amount type, percentage and wagering are determined by the full Third Bonus card.

FLG-M-CB01 · slot and live cashback. In the published English-language weekly memo, a slot loss above 100 EUR and total deposits exceeding payouts over all time are separate conditions. In the selected version, the weekly base is 128.40 EUR and the tier rate is 3%; the calculated credit before monetary rounding is 3.852 EUR, to be reflected as 3.85 EUR. For statuses, the rules of the Polish structured showcase with ×10/×5/×3 and the conditions of alternative memos with their own 24/72-hour deadlines are recorded. Live Cashback for DIAMOND is credited on Wednesday 09:00-10:00 UTC, without wagering, when the loss for the period exceeds 50 EUR in all currencies and deposits exceed withdrawals over all time. The text briefly names 5% of Live Games bets, while in the crediting procedure it states the result of bets minus bonuses received and a cap by the overall result across games. The calculation according to the second description, with 600 EUR of bets, 440 EUR of full payouts and 20 EUR of accounted bonuses, gives (600 − 440 − 20) × 5% = 7 EUR. In this calculation, the overall result across all games does not reduce the calculated amount. The specific payout is determined by the applied conditions. These are different payouts; bets and losses are not duplicated between groups. The conditions of the sports cashback and accumulator refund apply to separate coupons; the bet as a base there differs from net losses.

FLG-M-SP01 · sports welcome and adjustment. A separate first deposit of 200 PLN in the sports profile; 25% gives 50 PLN of free bet with a cap of 500 PLN. For the accumulator, three eligible outcomes with odds of 1.42, 1.48 and 1.61: the total is 3.383576. Each of the three odds is above the card's minimum of 1.30; the total is below the maximum of 5.0. If all parts win, the free bet payout without return of the nominal is 50 × (3.383576 − 1) = 119.1788, rounded to 119.18 PLN. State before applying the coupon: bonus balance 0 PLN. When assembling the route, the expected credit of 50 PLN does not appear due to a delay in syncing the mark about selecting the offer. The Telegram contact began at 19:30 Europe/Warsaw, the automatic receipt in the same minute, the substantive reply at 19:38, transfer to Live Chat; the agent in chat at 19:42, manual correction at 20:06. After the adjustment, 0 + 50 = 50 PLN of bonus balance. The financial result of the contact is that the free bet credit was restored. The success of the bet and the separate payout of 119.18 PLN relate to the condition of all three events winning, not to the correction itself.

FLG-M-SP03 · accumulator and cashout. For the separate Accumulator Bonus promotion, three components with a price of at least 1.5 and a stake of no less than 1 PLN. In the calculation, 12 PLN, prices 1.53 × 1.62 × 1.71 = 4.238406; full payout without the increase is 50.86 PLN. With a 10% increase on the profit, not on the whole quote, the total is 54.75 PLN. A refund of the middle part is counted with odds of 1 and leaves two qualifying parts; the tier for three events no longer applies; recalculation 12 × 1.53 × 1.71 = 31.40 PLN. The separate cashout FLG-M-SP04 on an open bet showed 10.70 PLN and changed to 10.45 PLN upon confirmation; with the full accepted settlement of the remainder, there is no open bet. Partial closing, where the button is provided, leaves the unsold share open; for the saved route, availability is determined by the coupon. Simultaneous crediting of a regular winning bet and the amount of a full cashout is excluded.

Min. deposit for the bonus	50 PLN for the Welcome Bonus on a PLN account. The minimum Bitcoin at the cashier of 40 PLN does not lower the separate threshold of the welcome promotion.
Free spins and games	The Welcome Bonus on the first deposit is cash. Second Bonus: 30-500 FS in Fortuna Trueways (BGaming) with a fixed nominal value of 0.50 PLN per spin.
Activation and code	On the first eligible top-up the author's bonus was credited automatically. The Polish cashier displayed the choice of the 150% Welcome Bonus; no code was required for the saved option.
Money wagering	×45; for the "bonus only" calculation base 75 × 45 = 3,375 PLN at a 50 PLN deposit, and 1,500 × 45 = 67,500 PLN at the cap. With the "deposit + bonus" base option 125 × 45 = 5,625 PLN at the minimum deposit, when this mode is explicitly prescribed by the terms of the offer.
Wagering of free spin winnings	One of the FAQ notes for deposit FS by promo code states ×25 of the actual winnings. In the confirmed calculation 8.40 PLN × 25 = 210 PLN of qualifying turnover. For the Second Bonus the terms of its card apply; the nominal value of the spins does not determine the winnings.
Contribution and game exclusions	Under the general rules eligible regular slots give 100%; Real Money, Jackpot, slots with variable volatility and other games give 0%. In a separate FAQ note for eligible table games, roulette and live, 5% is stated. The contribution amount is applied according to the rules of the selected offer.
Wagering period	72 hours from activation are specified in the FAQ memo for a separate route of deposit FS by promo code. The Welcome Bonus term applies according to its active card in Balance. The Birthday bonus is valid for 7 days after activation.
Max. bet during wagering	Up to 25 PLN from a single bet is counted during Polish wagering under the general Terms rule, unless a specific promotion sets a different limit.
Bonus withdrawal limit	For the Welcome Bonus, the maximum win is ×10 the bonus amount. With a 75 PLN bonus - 750 PLN; at the 1 500 PLN cap - 15 000 PLN.
Repeat and sports bonuses	Welcome Free Bet - 25% up to 500 PLN on a qualifying first sports deposit from 50 PLN, an accumulator of 3+ events. Second Bonus, Reload Cash, Reload Spin and Reload Free Bet are calculated by their own separate tiers.

Bonuses and promos - Additional parameters

Parameter	Value
Activation deadlines	The Welcome Bonus applies to the first qualifying deposit. For a separate code offer, the FAQ requires entering an active code in the cashier before depositing and pressing Activate.
Free spin denomination	Second Bonus: 0,50 PLN per FS in Fortuna Trueways. 30 FS at the minimum tier have a denomination of 15 PLN until the actual result of the spins is determined.
Payment method restrictions	The bonus terms apply to the first qualifying deposit; the cashier separately shows the availability of its own instrument. The author confirms cashier thresholds for Visa, Mastercard, USDT TRC20 and Bitcoin, rather than universal compatibility of every route with the promotion.
Cancellation result	My Profile → Balance → cancel bonus. The FAQ states that the bonus winnings are cancelled together with the bonus. Active bonuses and FS must be completed or cancelled for withdrawal.
