Deposits - Main parameters

Parameter	Value
Deposit methods	The author's Polish deposit list, 104 items: Avalanche (AVAX), Crypto.com, OKX Europe, Brazilian Real (BRL), Visa, Algorand (ALGO), Credit Agricole Bank Polska, mBank, Klarna, Przelewy24, UAE Dirham (AED), PKO Bank Polski, Ukrainian Hryvnia (UAH), eService, Planet Pay, BLIK Contactless, BNB (BNB), Diners Club, Zapp Pay, Chilean Peso (CLP), IBK Bank Polska, Fidesmo Pay, Revolut Pay, Euro (EUR), PayPal, BLIK Transfer to Phone, BFF Bank, Polish Zloty (PLN), NETELLER, SumUp, EURC (EURC), Kraken, Woori Bank Europe, Malaysian Ringgit (MYR), mPay, QR Payment, Australian Dollar (AUD), Adyen, Uniswap (UNI), Qatari Riyal (QAR), NFC Payment, XRP (XRP), Goldman Sachs Bank Europe, Ondo (ONDO), Toyota Bank Polska, Inbank, Cronos (CRO), Toncoin (TON), Internet Computer (ICP), Cardano (ADA), ING Bank Śląski, Shiba Inu (SHIB), Elavon, CoinGate, BNP Paribas Bank Polska, American Express, YetiPay, Dogecoin (DOGE), Aave (AAVE), Bank Transfer, HotPay, Tpay, Card-to-Card Transfer, Express Elixir, US Dollar (USD), Aptos (APT), Santander Consumer Bank, Hungarian Forint (HUF), Intesa Sanpaolo, Cosmos (ATOM), paynow, Bank Gospodarstwa Krajowego (BGK), Indonesian Rupiah (IDR), Danish Krone (DKK), Mastercard, Autopay, TransferGo, Icelandic Krona (ISK), MetaMask, SEB, Ikano Bank, TronLink, Philippine Peso (PHP), Egyptian Pound (EGP), Krajowy System Rozliczeń (KSR), Apple Pay, Stripe, Payoneer, Industrial and Commercial Bank of China (ICBC), Bank Millennium, Bank Pekao, JCB, Discover, CA Auto Bank, British Pound (GBP), Hong Kong Dollar (HKD), ZEN.COM, Billon, Kenyan Shilling (KES), Nest Bank, National Bank of Poland (NBP), Injective (INJ), DNB Bank Polska, Revolut Bank. The list includes banks, gateways, methods, assets and currencies. Cashier minimums are separately recorded for Visa, Mastercard, USDT TRC20 and Bitcoin.
Account and payment currencies	Polish Visa calculation: debit and credit in PLN, 125 PLN without conversion. Separate USDT TRC20 check: debit from one's own wallet and balance credit in USDT.
Min. deposit	50 PLN via Visa, Mastercard and USDT TRC20; via Bitcoin - 40 PLN. For the Welcome Bonus, a qualifying top-up of at least 50 PLN applies separately.
Max. deposit	On the PL form, Deposit determines the maximum by method before confirmation. Historical LCB EUR example: up to 2 500 EUR per Bank card transaction and up to 10 000 EUR for Skrill, a separate currency slice.
Operator fee	For a confirmed Visa top-up of 125 PLN in PL, the operator fee is 0 PLN and the amount is not converted. A possible markup on conversion under the Terms relates to a separate exchange route.
External fees	Visa check with matching currency: 0 PLN external fee. For USDT TRC20 in a separate check, a wallet fee of 0.84 USDT is added to the 20 USDT send.
Crediting time	The FAQ states usually seconds after processing and recommends chat if not credited within an hour. Visa check: from 18:14 to 18:16 Warsaw time, 2 min from sending to balance.
Confirmation and status	Match the bank confirmation or the hash in your wallet with My Transactions and the updated cash balance. While pending, the transaction is not yet considered credited.
Owner of the payment instrument	A card, account or wallet in the name of the account owner is permitted. The Terms prohibit top-ups from third-party payment instruments.

Parameter	Value
Crypto network and confirmations	USDT - TRC20 network per a separate author threshold. In FLG-M-P02, 20 network confirmations were confirmed as a condition for crediting. For a specific transfer, the network status and the separate cashier crediting status are retained.
Bonus conditions	First qualifying top-up of at least 50 PLN for the 150% Welcome Bonus; in the author's record it was credited automatically after the minimum deposit. The method of the test credit was confirmed. The BTC threshold of 40 PLN relates only to the cashier.
Delay or rejection	If funds are not on the balance after an hour, the FAQ directs you to Live Chat with a screenshot of your transfer. Verify the direction, currency, status and ID before a possible repeat.

Deposits - Additional parameters

Parameter	Value
Credited amount	In the Visa check in Poland, 125 PLN were debited and 125 PLN credited. In the separate USDT TRC20 check, 20.00 USDT were sent and credited; 0.84 USDT is a separate wallet expense.
Conversion rate	For Visa, 125 PLN → 125 PLN without FX. For the verified TRC20 route, 20 USDT → 20 USDT, with the external fee of 0.84 USDT paid on top. For another currency, the rate on the Deposit form applies.
Crypto network requirements	Use the matching asset and network specified by the request address. For USDT - the TRC20 route. A persistent internal transaction identifier is not a public TXID.
Limit on the number of deposits	Personal Deposit Limits in the account operate by day, week and month. For repeat payments, a new top-up is created only after checking the status of the previous one, and 1-Click mode applies to the same own card.

Payments and top-up - Main parameters

Parameter	Value
Account currencies	The author's profile shows PLN, USD, EUR, CAD, KRW, TRY, IDR, RUB, NGN, CZK and cryptocurrency positions. The PL regional setting from the export separately lists PLN/EUR and USDT/BTC/ETH.
Deposit methods	104 currency and channel positions in the Poland expert list. Key groups: Visa/Mastercard cards, BLIK, Apple Pay, Przelewy24, banks, wallets, fiat and assets. Minimums for Visa, Mastercard, USDT TRC20 and Bitcoin are provided separately.
Withdrawal methods	73 positions in the Poland withdrawal expert list, e.g. Visa, BLIK Contactless, BLIK Transfer to Phone, Revolut Pay, NETELLER, Apple Pay, XRP, ADA and PLN. The cashier presents the specific route for the account. Terms require an eligible instrument from the deposit.
Availability by market	Poland - expert profile and separate direction lists. In the archived interface, the FR icons belong to a different snapshot and market. The set of available operations is determined by the settings of the specific cashier.
Min. deposit	50 PLN - Visa, Mastercard and USDT on TRC20. 40 PLN - Bitcoin. The independent Kasynogracz review separately lists BLIK from 50 PLN with its own scope.
Max. deposit	In the independent Kasynogracz table, Poland: Visa and Mastercard up to 4 000 PLN for top-up, BLIK up to 1 000 PLN. Tether and Ethereum are listed without an upper limit in that table.
Crediting time	The operator FAQ describes crediting within seconds after payment processing. If it is not displayed an hour after the deposit, the check goes through chat with confirmation of the transfer. In the author's record, the fact of the top-up is separately confirmed.
Operator fee	Kasynogracz indicates 0% platform fee in the published top-up table for Visa/Mastercard, BLIK, Tether and ETH. The fee for violating the withdrawal turnover conditions is a separate Terms clause.
Payment fees	The bank or network may charge a fee separately from the casino's commission. Before confirming, the transfer amount, the deduction and the amount in the cashier are compared in one currency or at an explicitly shown rate.
Conversion	The account's exchange rate refers to the selected currencies/assets and the moment of settlement. The sent denomination and the received amount are compared. 40 PLN for BTC is the equivalent of the minimum.
Assets and networks	USDT as the asset and TRC20 as the network for the 50 PLN threshold. BTC is a separate asset. ETH, XRP, ADA, AVAX and others in the lists are kept as separate positions; the network is selected per the available route.
Payment confirmation	In the account, My Transactions reflects operations. For a delay, the operator FAQ asks for a screenshot of the transfer in Live Chat. For a crypto operation, the receipt and identifier refer to the specific transfer.
Payer requirements	Payment from a card, wallet or bank account registered in the name of the gaming account holder. For withdrawal, per the Terms, the same eligible instrument applies, and the crypto route is linked to a crypto deposit.
