In-play betting - Main parameters

Parameter	Value
Sports in live	In Esports All Live Counter-Strike 2, Dota 2, League of Legends, FIFA and NHL are visible. Sports promotions separately showed live applicability for football, hockey and basketball.
Depth of the live line	Sangal Esports - Luminosity, CS2 / Stake Ranked, second map, 20.11.2026 21:25:11 UTC+4: +307 additional markets according to the card, nearby Win1/Win2, totals and handicap are visible.
Access to streams	The Sports FAQ states authorization is required for streams. The PLAY icon marks events with an available broadcast; the presence of a match in the live line by itself does not guarantee a stream.
Match centre and statistics	Live Match Tracker and the statistics button in the event card. Esports cards show the series score, map score, stage and odds.
Odds change	The price is updated until confirmation. The slip settings define the handling of odds or argument changes; when confirmation is required the user explicitly accepts the new price.
Bet delay	Verified live coupon in PLN: 3.62 s from pressing Place with the market open to the accepted coupon appearing in My Bets. If the odds change, the count refers to the confirmed submission.
Confirmation and status	An accepted bet is shown in My Bets according to the FAQ. When a new price is offered the slip requires confirmation according to the setting, a closed market does not accept submission.
Types of Cash Out	My Bets → open bet → Cash Out. When available, the details show the offered early settlement amount; its size depends on the current odds.
Cash Out limitations	Cash Out is available at the discretion of the Sports Platform for an open bet, and may disappear when the market is suspended or the price is updated. A new offer is shown in the bet card.
Match interruption	If an interrupted or postponed event has not resumed within 48 h, the FAQ provides for a refund of the stake, except for outcomes already determined.
Disputing a settlement	In Live Chat the slip ID, event, market and the odds used are provided. The FAQ states that support verifies the settlement; a formal dispute is referred according to the Terms procedure.

In-play betting - Additional parameters

Parameter	Value
Quick bet	Quick Bet is enabled in the slip and allows betting in one click at the selected odds without manually filling in the bet form, according to the sports FAQ.
Accepting a new price	The odds or argument change setting applies. In manual mode the slip shows the updated price, and the bet is counted at the value confirmed upon acceptance.
Minimum live bet	The general minimum of a regular sports bet according to the FAQ is 1 PLN. The live market must additionally be open at the moment of acceptance.
Live settlement time	According to the FAQ settlement occurs after the result is published on official resources. In the event of an interruption, the guideline is 48 h until recalculation to a void for an undetermined outcome.

Prematch and live - Main parameters

Parameter	Value
Sports	Football, tennis, hockey, basketball, combat sports and motorsport via navigation. There is a separate Esports storefront with disciplines and leagues.
Prematch and live	Prematch - before the start, live - after the start. The Esports storefront shows Live, Upcoming and Outrights and publishes odds as a snapshot state.
Depth of the markets	In the snapshot Liverpool(pikalicaaa) - Real Madrid(Mani) 20.11.2026, the indicator +51, 1X2, total 5.5 and handicap 0 are shown. The depth depends on the event.
Bet slip types	Single, accumulator and system. Availability of type and outcome depends on the market and event.
Special markets	1X2, double chance, total, handicap and Asian handicap. Individual mechanics Accumulator Bonus, Cash Out, Edit Bet and Early Victory apply according to their card.
Min. bet	1 PLN - minimum bet per the sports FAQ. Special promotions may apply a separate allowance.
Bet or payout	1X2 check: 17 PLN bet on Liverpool at 2.31. On a win, calculated full payout 39.27 PLN and net result 22.27 PLN. The maximum bet per the FAQ depends on the platform.
Odds	Decimal odds in the 1X2 control market - 2.31 / 4.70 / 2.20. The displayed odds, accepted odds, format and result are recorded separately.
Statistics and broadcasts	On saved cards, the score, status, tournament, matches and the Results section are visible. Per the sports FAQ, events with a broadcast are marked PLAY, and viewing opens after login.
Live delay	In the verified PLN profile, a live bet slip shows 3.62 s from Place with the market open to the accepted record in My Bets. When the price changes, the countdown starts from the confirmed submission. The separate Liverpool - Real Madrid example refers to pre-match.
Cash Out	My Bets → active bet → Cash Out. Availability and amount depend on the current market and the sports platform's decision. This is an early settlement under the bet slip terms.
Settlement and cancellation	Full payout of a single = stake × accepted odds on a win. An accumulator multiplies the corresponding odds, a system sums the winning combinations. Ordinary manual cancellation of an already placed bet is not available per the FAQ.
Esports	The snapshot of 20.11.2026 shows Dota 2, CS2, LoL, Valorant, Overwatch 2, Honor of Kings, Crossfire, FIFA, E-ATP, NHL and Standoff 2. Live and pre-match events are shown.
Virtual sports	Electronic FIFA and NHL matches in the observed showcase belong to Esports. The check uses a FIFA ESportsBattle match; the standalone virtual product has a separate area.
