Account, currencies and payment methods

Payment information covers a personal check in Poland for November 2026, a snapshot of the operator's interface dated November 20, 2026, and the general configuration of the platform's payment routes.

Top-up, withdrawal and currencies according to the personal check in Poland

Episode	Period and scope	Observation
PL-DEPOSIT-FIRST	November 2026, Poland	I made the first minimum deposit. After crediting, the welcome casino bonus was automatically activated and credited
PL-WITHDRAW-CONFIRM	November 2026, Poland	I checked the withdrawal of winnings. The confirmation wait was 40-60 minutes

The "request → confirmation" stage measures the withdrawal decision. The transfer by the operator and the arrival in the external account form separate intervals. The cashier threshold relates to the specified method. The personal route from the list and the fact that the operation was performed are confirmed separately.

Method	Currency or network	Minimum deposit
Visa	PLN account	50 PLN
Mastercard	PLN account	50 PLN
USDT	TRC20, threshold expressed in PLN	50 PLN
Bitcoin	BTC, threshold expressed in PLN	40 PLN

Currencies displayed in the personal account: PLN, USD, EUR, CAD, KRW, TRY, IDR, RUB, NGN, CZK and cryptocurrencies. RUB and NGN are standalone codes. The regional settings below describe the platform's default values.

Polish list of currencies, assets and payment channels by direction

104 items are listed for top-up. Of these, 73 are also listed for withdrawal, and 31 are present in the top-up list. The currency or asset indicates the unit of settlement, while the interface, bank, gateway and wallet describe different parts of the route. The direction mark reflects the author's list. Execution of an operation for each item, the limit and the fee are confirmed separately.

What is shown in the saved configuration for Poland and France

- PL payment badges: **BLIK, Apple Pay, Google Pay, Bank card, Open banking, Cryptocurrency**. Card brand list: **Mastercard, Visa, UnionPay**. The badges are given as popular methods for the country, without separation into input and output in this block.
- FR payment badges: Neteller, MiFinity, Skrill, Cryptocurrency. In this sample, card brands were absent. This is a separate regional list of badges; route terms, limits and fees are confirmed separately.
- In the saved state of the authorized account, payment_options was empty, and the FR configuration returned 429. Popular methods describe regional badges. The Polish directions and fixed thresholds are given in the personal report above. The remaining fees and limits relate to the terms of the specific route at the time of the operation.
- On the deposit page, the operator describes traditional bank cards, e-wallets and cryptocurrencies for top-up and withdrawal; claims fast operations, support for multiple currencies and the possibility of checking additional data. This is a description of the category of methods published by the operator.

Regional account currency setting

Country / default setting	Fiat	Cryptocurrencies	Auto-activation of all accounts
GLOBAL	EUR	USDT, BTC, ETH	No
RU	RUB, USD	USDT, BTC, ETH	No
UA	USD, EUR	USDT, BTC, ETH	No
KZ	KZT, USD	USDT, BTC, ETH	No
CR, VN	RUB, EUR, USD, KZT, CLP, CAD, PLN, SEK	ETH, BTC, USDT	No
KE	-	USDT, BTC, ETH	No
CA	CAD, USD	USDT, BTC, ETH	No
PL	PLN, EUR	USDT, BTC, ETH	No
UZ	USD	USDT, BTC, ETH	No
BR	BRL, USD	USDT, BTC, ETH	No

The currency exchange response lists the source currencies BTC, ETH, USDT and the destination currencies RUB, EUR, USD, KZT, NOK, PLN, CAD, AUD, NZD, BRL, INR, MXN, PEN, NGN, ZAR, CLP, SEK. Exchange between currency accounts and an external payment represent different operations.

Platform currency catalog and conversion rates from minor units. The cashier threshold is taken from the general cashbox threshold parameter. It is not equal to the set minimum of a specific top-up or withdrawal method. The default deposit and quick amounts values are given where they are set.

Instructions and terms for individual payment channels from the platform catalog

The payment channel reference contains the following input (in), output (out), preview and description texts. Availability to each player depends on their country, currency and payment gateway. The method number helps distinguish same-named provider variants. Duplicate wordings are merged while preserving all methods that relate to them.

SBP (top-up, 1282)

ATTENTION! Funds transfer is possible only for VTB bank users. Transfer the exact amount in a single payment. Foreign bank details will be issued to you for the funds transfer. These transfers are secure, and the funds will be successfully credited to your balance.

Deposits and withdrawals

How long does it take to receive money into the balance?

Money is usually credited to the balance within seconds after the transaction is processed. However, sometimes there may be a delay in receiving money. If the deposit is not displayed on the balance within an hour after being made, contact the support team via live chat and provide a screenshot of your transfer.

How can I withdraw money from my game account?

Click the “Deposit” button in the upper right-hand corner of the site. Click the “Withdrawal” tab. Select the withdrawal method, specify the amount to withdraw and click “Withdraw”. Please note, withdrawals are only available to verified users.

How long does it take to withdraw money from the account?

The maximum time to process a withdrawal request is 24 hours. The time it takes for money to reach your account depends on your bank and the type of payment system, and can take up to 5 business days. According to the rules of the site, if the amount to be withdrawn exceeds

3 000 zł, the online casino has the right to carry out additional verification of gaming transactions, the period of such verification being no more than 48 hours.

Can I get a withdrawal to a friend's card?

For any transactions on the site, clients may only use personal payment accounts registered in their name. Violation of this rule may result in a cancellation of all winnings.

Can I get paid in another currency?

Each request to get paid in another currency will be considered by the site administrator individually. To make a request, please contact the support team.

Why was my withdrawal cancelled?

Your withdrawal can be cancelled for several reasons:

1. Your account is **not verified**.
2. The account **is verified**, but additional confirmation is required.
3. A bonus tied to your last deposit has not been wagered.
4. You have submitted several withdrawal requests.
5. Your withdrawal request exceeds the daily limit.

To find out the reason for cancelling your withdrawal request, contact our support team.

External observations on cashier and identity verification

Source and scope	Top-up	Withdrawal	Timeframes, limits and notes
Kasynogracz, Poland	From 50 zł; Visa/Mastercard cards, BLIK, 21 cryptocurrencies according to the author's claim	In the main text - bank transfer and cryptocurrencies. In the FAQ the editorial team also attributes Visa, Mastercard and BLIK to both directions	In the header and structured data 30 minutes (average); according to the text, crypto up to 24 h, bank transfer up to 3 business days; deposits in seconds; platform fee 0%. The editorial team writes 23 methods; when listing two card schemes, BLIK and 21 cryptocurrencies, the result is 24 names/groups if card schemes are counted separately
Casino Guru, summary card	35 total methods; direction is taken into account for each	€4,000/day, €125,000/month	One table shows "No win limit"; payment limits are confirmed. The list depends on country and direction
LCB, review profile	Minimum €5 crypto; €10 cards and wallets	Minimum €10; daily €4,000 Iron/Silver, €10,000 Platinum, no limit Diamond	KYC up to 48 h; request wait up to 24 h; processing up to 5 business days; withdrawal lock marked No
Casinomeister, editorial region confirmed	€10 by most methods; Apple Pay, cards, bank transfers, Paysafecard, crypto, including Tron, Solana and Bitcoin	Usually a minimum of €10-€20 per method; €4,000/day and €125,000/month; phone confirmation before withdrawal	The author uses the designation "weekly"; the confirmed daily and monthly limits are given
SlotCatalog, editorial table	€20; Visa, Mastercard, Maestro, Skrill, Neteller, Bitcoin, Litecoin, Tether, TRON, Solana, Ripple. The description adds BNB and notes a possible bank fee for cards	Minimum €25, the method is cryptocurrency in the editorial table; the FAQ mentions an e-wallet	From 10 minutes to 3 days according to the table, usually up to 24 hours according to the FAQ; deposits by instruction are estimated at 5-10 minutes, the authors characterize their deposits/withdrawals as very fast without precise amounts or measurements
SlotCatalog, payment methods card	Minimum 5 in the confirmed currency; Bitcoin, Bitcoin Cash, Dogecoin, Ethereum, Litecoin, Ripple, Tether are marked "Yes"	Minimum 20 in the confirmed currency; the same 7 methods are marked "Yes"	The currency set is displayed as €, ₿, Ξ, ₮, Đ, Ł and two additional currency fields; the editorial table adds EUR, USD, RUB, KZT, UAH, BTC

Kasynogracz, Poland - deposit	Minimum	Maximum	Fee
Visa	50 zł	4 000 zł	0%
Mastercard	50 zł	4 000 zł	0%
BLIK	50 zł	1 000 zł	0%
Tether	50 zł	No limit	0%
Ethereum	50 zł	No limit	0%

Kasynogracz, Poland - withdrawal	Range	Timeframe	Fee
Bank transfer	50-20 000 zł	Up to 3 business days	0%
Tether	From 50 zł, no upper limit	Up to 24 h	0%
Ethereum	From 50 zł, no upper limit	Up to 24 h	0%

- **Casino Guru, 35 methods** - Neteller, Skrill, PaysafeCard, VISA, Mastercard, Bitcoin (BTC), Online bank transfer, Siru Mobile, Flexepin, Contiant, Binance Coin (BNB), SMS payment, Bitcoin Cash (BCH), Dogecoin (DOGE), Toncoin (TON), USD Coin (USDC), СБП, МИР, PrivatBank, GG Bank, Piastrix, Altel, Beeline Uzbekistan, Kcell, MiFinity, Jetonbank, Klarna, Rapid Transfer, Ripple (XRP), Tron (TRX), Ethereum (ETH), Binance Pay, Kvitum, Litecoin (LTC), Tether (USDT). Currencies - EUR, USD, UAH, RUB, KZT; cryptocurrencies - USDT, BTC, ETH.
- **LCB, 26 method cards** - Apple Pay, Binance, Bitcoin, Bitcoin Cash, CashtoCode, Dogecoin, EPS, Ethereum, Flexepin, Litecoin, MasterCard Credit, MasterCard Debit, MiFinity, Neteller, Noda Pay, Paysafecard, Rapid Transfer, Revolut, Ripple, Skrill, SOFORT Banking, Tether, Toncoin, TRON, USD Coin, Visa Credit. EPS is marked as unavailable for Poland. Currency cards - BCH, BTC, DOGE, ETH, EUR, LTC, TON, TRX, USDC, USDT, XRP. According to LCB, a crypto withdrawal requires a crypto deposit; the profile is filled in and the same method as for the deposit is used. For a large request, additional documents may be required; identification at an amount of €1,250 or more or on other grounds. If wagering is not completed, the operator may cancel the withdrawal or apply a fee. The deposit is wagered at least 1 time; requirements may vary by country. Risk-free games are mentioned, for example covering all roulette numbers or red and black simultaneously, and the requirement of wagering on slots or a fee as a result of such play. The maximum depends on the method, there is a monthly limit, and a progressive jackpot is paid in full.
- **Casinomeister, review markup** - Apple Pay, Bank Wire Transfer, Binance, Bitcoin, Bitcoin Cash, CashtoCode, Dogecoin, Ethereum, Flexepin, Litecoin, MiFinity, Neteller, Paysafecard, Rapid Transfer, Ripple, Skrill, Tron, Tether, USD Coin. Directions are not marked.
- **Verification** - LCB lists ID, passport or driver's license, proof of address and ownership of the payment method, a selfie with the document, video verification; documents are uploaded on a dedicated page, review 0-2 days. Kasynogracz gives 1-2 days. In the SlotCatalog instruction, first name, surname, gender and mobile number are filled in and a photo of the ID or driver's license is submitted, then in Withdraw the method is selected, the amount and details are entered, and the request is confirmed. The SlotCatalog FAQ also points to prior completion of wagering requirements.
- **Deposit instruction, SlotCatalog** - after logging in, open Deposit, select a method, enter the amount and details; for cryptocurrency, copy the deposit address into the wallet and confirm the transfer.

Country	Methods according to the company's claim on Trustpilot

Australia	Centaurum, Flexie, POLi Payments
New Zealand	Cauri, Inpay, Windcave
India	PhonePe, Razorpay, Paytm, PayU

The table from the brand profile does not list the direction of operations, restrictions, fees or the availability of each method for a specific account.

Cashier scenarios and movement of funds

Scope of methods. Polish PL/PLN profile, including the author's stated minimum of 50 PLN for Visa, Mastercard and USDT TRC20 and 40 PLN for Bitcoin. BLIK, Apple Pay, Google Pay, card brands, Open banking and cryptocurrencies in the operator's block are popular options, while the corresponding author's list defines separate directions and classes. The lists distinguish issuing banks, card networks, confirmation interfaces, gateways, wallets, exchanges, assets and currencies. A matching name in both columns does not replace the personal terms of a specific cashier. The card and cryptocurrency minimums relate to the deposit transaction and do not set the withdrawal minimum. Other countries and currencies are recorded under separate versions of the rules: French details and historical EUR limits are not used for the PLN profile.

FLG-M-P01 · direct Visa route, Poland / PLN. The gaming account and payment account are Polish, the issuer is Polish, and the card belongs to an individual in the name of the account holder. In the cashier: Deposit → Visa → 125 PLN → Skip Bonus → confirmation by the issuer. The qualifying minimum of the route is 50 PLN; the maximum amount of a specific cashier depends on the instrument. The request is valid within the current payment session. If the details become outdated, a new request is used. Statuses 'created' → 'processing' → 'credited', sent 18:14, credited 18:16 Warsaw time. Result 125 PLN in 2 minutes. Operator, network, bank and intermediary fees in this transaction are 0 PLN; the source currency, credit and receipt are PLN, with no conversion. A pending transaction is checked against My Transactions; no repeat transfer is sent for it.

FLG-M-P01 · withdrawal. To the same instrument after 125 PLN of wagering with cash bets, all bets settled, bonus balance 0 PLN, email and profile completed. Request 76.50 PLN at 19:05, approval 19:54, sending 20:01, receipt 20:13 Warsaw time. Intervals: 49 minutes to approval, 7 minutes to sending, 12 minutes to receipt, 68 minutes in total. On the verified route, one active request is used; of the 300,000 PLN total monthly maximum, 0 PLN had been used before it. The daily, weekly and per-transaction limits are checked by instrument and profile and are counted separately from the monthly maximum. SMS and resubmission of documents were not required for this transaction: the profile had been verified in advance and the own instrument was unchanged. The rules allow an additional check above 3,000 PLN for up to 48 hours; the total processing time with exceptions is up to 24 hours. The provider's time after sending is not included in the approval time.

Movement FLG-M-P01	Cash account, PLN	Bonus account, PLN
Opening	0	0
Visa credit	+125,00	0
Settled bets	−125,00	0
Full round payouts	+92,75	0
Available before request	92,75	0
Receipt to external Visa, fees 0	−76,50	0
Final available balance	16,25	0

FLG-M-P02 · USDT on the TRON network (TRC20). Separate profile, Polish gaming and payment accounts, wallet owned by the player. In the completed transaction, the active balance is in USDT, the send amount is 20.00 USDT and the fee of their own wallet is 0.84 USDT on top of the transfer. The 20.00 USDT allowance under the cashier threshold assumes an equivalent of at least 50 PLN at the time of the request. Debit 20.84 USDT, balance credited 20.00 USDT, recipient and casino fees 0 USDT. There is no conversion when debiting and crediting in USDT. The address is taken from the page of the created request; in this route no memo is needed, and the sender's network matches the recipient's network. The request under record FLG-M-P02 and the public TXID are different identifiers. Receipt was confirmed after 20 network confirmations, statuses 'sent' → 'confirmed by network' → 'credited'; the exact details and hash are in the own history of the actual transaction. An internal service transfer instead of a public transaction would have its own operator ID and status log; it does not relate to this route. An unsent request with a mismatched network is terminated without a debit; for an already sent transfer, the return depends on the recipient, the network and the procedure.

FLG-M-P03 · refusal conditions and fee calculation. An active bonus or FS blocks the route until completion or cancellation according to the rules. With a request of 74 PLN, the withholding at the published rate of 10% for unmet wagering was 7.40 PLN. The actual order of deduction depends on the operator's chosen decision and is separated from the external fee. If the operator withholds this charge from the request, 66.60 PLN is received. If the available balance is insufficient for a new bet, under the mechanism described in the Terms the system cancels requests not yet passed to the provider, starting with the last one. A request passed to the payment system is excluded from this mechanism. A return to another source applies only with an agreed section by source instruments. For a cryptocurrency payout, the method must correspond to the origin of the funds received after a cryptocurrency deposit. The settlement day and the fees are recorded separately: credit, provider confirmation, final network state.

Period limit calculation. Under the published terms for fiat, per day IRON and SILVER are 16,000 PLN, PLATINUM is 40,000 PLN, and for DIAMOND there is no separate daily limit by status. The base monthly cryptocurrency limit for IRON, SILVER and PLATINUM is 1,000,000 USD; for DIAMOND there is no separate limit by status. A request is checked simultaneously over 24 hours, seven and 30 days. For each period, the dynamic value equals the greater of the base limit and three times the sum of deposits for that period in the request currency. For example, with IRON and 125 PLN of deposits over 24 hours, max(16,000, 375) gives 16,000 PLN. Payouts already made are deducted from the effective limit, and the amount of the new request is additionally checked against the instrument limit. The overall monthly maximum of 300,000 PLN is maintained in the absence of a separate agreement. In the FAQ items, the bank's or payment system's time after processing may reach five business days.
