Promo code - Main parameters

Parameter	Value
Offer and status	Welcome Bonus for Poland/PLN: retained as an available offer; in the author's record it was credited automatically after the first qualifying deposit.
Code requirement	For the verified Welcome Bonus no code was required. The Activation code field in the interface applies to separate code offers.
Promo code	In the Welcome Bonus there is no entry: the offer is available without a code, so the Activation code field remains empty. A personal code for another promotion is taken from its invitation.
Promo code entry	For promotions with a code: Cashier → bonus code field → Activate before depositing. In the Polish Sign up form there is a separate Activation code field for qualifying registration codes.
Promotion availability	A new verifiable profile in PL/PLN that makes the first qualifying deposit and has access to the Welcome Bonus in the cashier.
Deposit for the promotion	First qualifying deposit from 50 PLN. The separate cashier minimum for BTC of 40 PLN does not change the promotion's lower threshold.
Payment methods	The available method in the Polish cashier is used; in the author's record the specific activation route is confirmed. For code-based FS, a method allowed by the offer card is required.
Reward size or type	Welcome Bonus - 150% of the first qualifying deposit amount up to 1 500 PLN. A calculation at 50 PLN gives 75 PLN in bonus credit without FS at this tier.
Code validity period	The Welcome Bonus has no separate code term: eligibility applies to the first qualifying top-up. For a personal offer, the calendar window is set by the invitation itself.
Crediting time and indicator	In the author's log, crediting is automatic after the first qualifying top-up; the bonus and progress are available in Balance. For code-based deposit FS, the FAQ separately states automatic crediting within up to 5 seconds.
Promotion compatibility	In the first Polish deposit interface, Welcome Bonus and Welcome Free Bet are different selection options. A code promo relates to the selected card; a combination is not assumed automatically.

Promo code - Additional parameters

Parameter	Value
Rejection reason	For a separate code promo, the FAQ requires a valid code before depositing. An error is checked against the term, profile/promotion match and entry before payment. The automatic Welcome Bonus has no code verification stage.
Activation deadline	A code offer is activated in the cashier before the qualifying deposit. The verified Welcome Bonus is connected on the first qualifying top-up.
Action upon cancellation	Balance → cancel active bonus. The credit and bonus winnings are voided according to the FAQ.
Automatic activation	The first qualifying deposit and the profile falling into the Welcome Bonus group are the conditions for automatic crediting according to the author's record; no separate code is needed.
