Win records

Latest Wins and Top Wins in the interface reflect the operator's stated records. The size of a jackpot or anyone's win does not predict the outcome of a game. Stake, win and payout are conveyed through separate storefront fields recalculated from minor units. Names are left in the form in which the storefront masks them.

Aggregate Top Wins field (EUR) across saved snapshots: 21:43:01: 1201942; 21:04:53: 1168820; 21:04:31: 1167957; 21:24:10: 1183376; 21:47:46: 1207137; 21:22:33: 1178645; 21:10:28: 1173385.
